SUMMARY

To pursue a career in a challenging and dynamic work environment where I can utilize my skills, knowledge, and experience to contribute to the success of the organization while continuously learning and developing myself both personally and professionally.

PROJECTS

1) Mail Bulk Shooter

<https://github.com/Deveshben/PythonProject> • September 2022 - September 2022

- We were a group of 4, and we built this project in Python.
- With one click, you can send multiple emails from the same account with the same message.
- Used various import libraries from Python, such as Re and Pandas.
- The names of the email recipients will be imported from the Excel sheet.

2) NewsApp

<https://snack.expo.dev/@deveshben/news-app> • February 2023 - February 2023

- A group of four people were on this project.
- It was a news app, but you can also view jokes on the app.
- It also allows you to see the temperature of different cities, but they were static because they were hardcoded.

3) Book Shop management system in c#.

<https://github.com/Deveshben/BookShopManagementSystemC-> • July 2023 - August 2023

- A group of two people were on this project.
- You can buy books from here, and a receipt will be printed.
- You can login as an admin through the username and password, and everything was synced through MySQL.
- Features like dashboards, books, users, and logout modules were made.

4) Algorithm trading bot in python in progress

<https://github.com/Deveshben/Automated-trading-bot-> • May 2023 - February 2024

- Three people are on this project.
- Implemented Bollinger bands and fibonacci retracement; till now, further development is in progress.
- Using the yfinance API and using Dash and Matplotlib.

EDUCATION

Pursuing 5th semester of Bachelor in Information Technology

Thakur College Of Science and Commerce • Kandivali East, Mumbai. • 2024 • Average of 1,2,3 and 4th semester is 70%

Higher Secondary Education

Thakur College of Science and Commerce • Kandivali East, Mumbai. • 2021 • 78%
